AT THE CROSSROADS OF NUTRITION, BIOTECHNOLOGY AND HEALTH
WHO ARE WE?

A cluster federating and supporting players in the food and health sectors in designing, developing and financing the products and processes of the future. The scope of NHL cluster activity revolves around the ONE HEALTH concept: Human health is closely related to animal and plant health.

NHL’s strategic directions

Health
Preventive, diagnostic, and therapeutic solutions towards lifestyle diseases
• Cardiovascular and metabolic diseases
• Neurodegenerative diseases
• Inflammatory Bowel Diseases (IBD)
